THE BUZZ

NEWSLETTER- DELHI PUBLIC SCHOOL , MATHURA ROAD

EDITOR'S NOTE

"Either write something worth reading or do something worth writing" - Benjamin Franklin

Welcome to the First Newsletter of 2021 of Senior School, Delhi Public School, Mathura Road. We are truly delighted and ecstatic to announce that we are ready to bring this out with all new joys and hues, which will undoubtedly unravel the school's most precious and treasured moments. I would like to pay gratitude to our respected Principal- Ms Deeksha Khera, Vice-Principal (Academics)-Ms Reema Sharma and Vice-Principal (Administration)-Mr. Naveen Kumar for their constant guidance and motivation.

Being a part of the prestigious Editorial team had always been a dream for me which came true the day I was appointed as the Vice Editor-in-Chief of the English Publication Department.

I joined the school at the start of 2020. Subsequently, the Corona phase entered, which was extremely challenging for everyone. But in these two years, we held on to each other and went through all of it together. Though it was a dark phase in most of our lives, it had a brighter side too. During the lockdown period, sitting at home, being the prisoner of the time, we had a rendezvous with ourselves! The pandemic nudged us to come closer to our inner-self as well as our loved ones and explore the unexplored part of our personal world!

The biggest impact of this time was on our teachers. During this time, they have gone to incredible lengths to help us keep going and motivated by giving us ideas and tasks for facing the unprecedented obstacles of life.

They also took up the role of great leaders and mentors and ensured that we never feel low, and worked to keep our spirits high. No words can express our gratitude towards their efforts. I

Dedicated. Smart. Creative. Imaginative. Gifted. Those are just a few words that describe the students you will meet in this Newsletter. This will be our continuous endeavour to bring in quality articles, opinions, and thoughts of our fellow students. This newsletter will be able to give a platform to all those who want to voice their thoughts and opinions in the open.

**YUSRA KHAN
VICE-EDITOR IN CHIEF,

V LITERATI 2021

19 JUNE-18 JULY 2021

The English Publication Department (Senior) of DPS Mathura Road conducted its annual literary event 'VLITERATI 2021' virtually this year. In accordance with the CBSE's Celebration of National Reading Day, Week and Month (19 June-18 July 2021), V Literati 2021 aimed to engage the students across classes VI-XII in a fulfilling literary sojourn. The fest was divided into seven insightful events, namely – Parchment and Ink, Doodle Me, Quizardry, Poet's shack, Wandering lens, Shakespeare Alive and Tweet a Tale.

With over 400 entries received in this virtual literary event, the response and participation of the students from across the Middle and Senior School have been exemplary and overwhelming.

CLASS X INTER-SECTION DEBATE

The Debating Society, DPS Mathura Road organized the third Inter-Section English Debate for Class X on 16 July 2021 via Google Meet. Twenty students from across eight sections of Class X participated in the competition.

The participants put forth compelling arguments both for and against the motion which stated – The traditional classroom does not address contemporary society's needs. Shreyas Singh (X-E) and Avani Pillai (X-E) were declared the Best Speakers. Shivansh Pandey (X-G) was declared the Best Interjector

VAN MAHOTSAV, AN ONLINE “TREE PLANTATION CAMPAIGN”

The Environment Council of Delhi Public School Mathura Road arranged a myriad of events in the month of July.

Van Mahotsav, an online “Tree plantation campaign” was conducted in the first week of July. Van Mahotsav, the forest fiesta of planting trees is celebrated annually with great enthusiasm. Thus, walking on the laid footsteps, our school too organized the campaign where the students sent their pictures or videos while planting a tree. More than 30 entries were received.

ESSAY WRITING COMPETITION ON “NOISE POLLUTION”.

The Environment Council organized an essay writing competition for classes VI and VII in the second week of July. The topic of the event was “Noise Pollution”. The event saw massive participation from the students who sent their essays brimming with creativity and knowledge.

ONLINE FIRE SAFETY DRILL

20 JULY 2021

The Disaster Management Club of Delhi Public School, Mathura Road organized a virtual fire safety drill through an informative video. It included details about fire such as the definition of fire, the fire hazards, what should be done when a fire breaks out, how and what type of fire extinguishers to use and how to recover from burn injuries. The video was shown to the students of all classes on the 20th of July 2021.

LIFE SKILLS TRAINING (SOCIAL SERVICE CLUB ACTIVITY)

In the month of July, the students of classes 6, 7 and 8 were imparted training on life skills, how children can handle peer pressure for any kind of undesirable or negative behaviour and learn the ways to be able to refuse and say no to things like cheating, bunking classes, excess use of video games, smoking, drinking alcohol, or getting into the trap of drugs and inhalant abuse. Life skills like self-awareness, critical thinking, communication skills and interpersonal relationships were discussed. Sessions on handling aggression and violent behaviour were taken up with middle school students as students spoke up about bullying and child abuse.

Students of classes 6 and 7 prepared posters on "Say no to tobacco" and "ill effects of tobacco". They were enlightened about active and passive smoking and various poisonous chemicals present in tobacco products and how they caused various diseases.

INTERNATIONAL TIGERS' DAY ON 29 JULY

The Environment Council observed International Tigers' Day on 29th July. The theme for this year was "The survival is in our hands". The students sent short 30 second videos of them speaking about tiger conservation. A number of entries were received and the event was a great success.

Steins;Gate 2021

On 22nd and 23rd of July, 2021, the Quiz Club of DPS Mathura Road organized its most perfervid annual and luculent Quiz- Steins;Gate 2021. It was conducted entirely through the online portal (Zoom and Google meet). The Quiz was divided into 3 categories: Junior Quiz (classes VI-VIII), Open Quiz (classes VI- XIII) and Senior Quiz (IX-XII) witnessing more than 160 participants.

Winners in the different categories:

- JUNIOR QUIZ FINALS - Winners: Shaurya Chandra Jha and Fauzan Sarwer
- MASTERMINDS OPEN QUIZ FINALS - Winners: Leos - Asmi Jayaraj Naik & Dhruva Vaid
- SENIOR QUIZ FINALS - Winners: Dexter - Rahat Shuja & Aziz Mallick

आशुभाषण प्रतियोगिता कक्षा - IX

कक्षा - IX
दिनांक - 09/07/2021

दिल्ली पब्लिक स्कूल मथुरा रोड के हिंदी विभाग द्वारा अंतरवर्गीय हिंदी प्रतियोगिता 2021-22 के अंतर्गत कक्षा IX में आशु भाषण प्रतियोगिता का आयोजन किया गया। यह प्रतियोगिता 9 जुलाई 2021 को ऑनलाइन माध्यम से गूगल मीट के आभासी मंच पर आयोजित की गई। आशु भाषण अर्थात् बिना किसी पूर्व तैयारी के अपने विचारों को प्रस्तुत करना। विद्यार्थियों के आत्मविश्वासपूर्ण, शुद्ध तथा सटीक भाषण पर आधारित इस ऑनलाइन प्रतियोगिता में कक्षा IX के 18 विद्यार्थियों ने प्रतिभागिता की तथा इन सभी में हमें सशक्त भविष्य की सुखद सम्भावनाओं के संस्पर्श महसूस हुए। हमारी गणमान्य निर्णायिका-द्वय आदरणीया रानी झा तथा श्रीमती रश्मि भारद्वाज जी के द्वारा चयनित विजताओं के नाम इस प्रकार हैं- प्रथम पुरस्कार - श्रिया जे0 नाइक (IX E) द्वितीय पुरस्कार - ध्वनि (IX F) तृतीय पुरस्कार - औरया सराफ़ (IX F) प्रोत्साहन पुरस्कार - जुनैरा अनवर (IX H) सानवी सुमन (IX I)

पात्र अभिनय प्रतियोगिता

कक्षा - IV
दिनांक - 16/07/2021

पात्र अभिनय का अर्थ है कलाकार (अभिनेता/अभिनेत्री) के द्वारा किसी विशेष पात्र अथवा चरित्र को संवादों, वेशभूषा तथा हाव-भाव आदि के माध्यम से दर्शाना, जिससे दर्शक को रस अर्थात् आनंद की प्राप्ति हो। बाल रामकथा पर आधारित इस प्रतियोगिता में कुल 18 विद्यार्थियों ने प्रतिभागिता की तथा इन सभी में हमें अभिनय की प्रांजल प्रभा की प्रदीप्ति के दर्शन हुए। हमारी गणमान्य निर्णायिका-द्वय सुश्री ममता शर्मा तथा सुश्री पूजा सिंह द्वारा चयनित विजताओं के नाम इस प्रकार हैं-

प्रथम पुरस्कार - अर्शिया सिंगला (VID) आशी मेंदीस्ता (VI C)
द्वितीय पुरस्कार - शिवांश गुप्ता (VI C)
तृतीय पुरस्कार - विहान अरोरा (VI A)
प्रोत्साहन पुरस्कार - आरणा शर्मा (VID) लावण्या भारद्वाज (VIF)

हमारी माननीया निर्णायिका महोदया -

प्रिय छात्रों,
आपका प्रदर्शन देखने योग्य था। किसी भी प्रतियोगिता में कुछ सच्चे ही विजयी होते हैं परंतु आप सभी के लिए एक विजय ही प्राप्त होनी चाहिए। आप प्रदर्शन देकर भी प्रथम में प्रथम पुरस्कार जीत सकते हैं। इन सभी में असाध्य प्रयत्न ही विजयी की कोई सीमा नहीं है। जैसे ही को जरासा जाना है ऐसे ही इन नए कला-कौशलियों को तरासा जाए तो ऐसा कोई कार्य नहीं है जो से न बन सके। सेवा भाव और आशीर्वाद सर्वत्र दृष्टे जाय है।
- पूजा सिंह
हिंदी विभाग

हमारी माननीया निर्णायिका महोदया -

सर्वप्रथम नई कलाकारों को उनकी सराहा अभिव्यक्ति के लिए हार्दिक बधाई।
मिनेता केवल यह नहीं जो प्रतियोगिता को जीत ले, मिनेता यह भी है, जो स्वयं में सम्माननार्थी होने के बगुन बन कर उपस्थित हुआ।
एक बार फिर से सभी को हार्दिक बधाई और शुभकामनाएं।
-ममता शर्मा
हिंदी विभाग

BIOLOGICA

The discoveries within the field of Biology satiate our curiosity, inflame our spirit of inquiry and inspire us to unravel the mysteries of the live world around us. In the same spirit, the BIOLOGICA 2021 was organized for students of classes 6-12. A total of eight exciting events were organized out of which five were offline events and three events were conducted live. More than 350 students participated in these events.

The winners of the event in various categories are as follows:

- Hop into healthy habits (Fireless cooking): Saisha Panigrahi VI-B and Vihaan Arora VI-A
- Know your plant challenge: Amber Khara VII-E
- Dress Trashion: Aashi Mittal VIII D and Adhyayan Gupta VIII G
- Caricature: Areeb Ahmed IX F
- Meme-O-Mania: Ayushman Anand X F
- Ecology through my Lens: Shaurya Bajjal XII D and Poojita Chand XI J

EARTHQUAKE DRILL

17TH AUGUST 2021

The Disaster Management Club of Delhi Public School Mathura road organized a virtual earthquake safety drill with the aid of an informative video. It includes details about what an earthquake is, precautionary measures one can take before an earthquake, how to protect oneself during an earthquake and what to do after an earthquake. The video was shown to students of all classes.

ESSAY WRITING COMPETITION

Keeping in mind the initiative of phasing out identified single-use plastic in India by 2022, the Environment Council of Delhi Public School Mathura Road organized an essay writing competition on the topic "Single-Use Plastic" for classes 8-12 in the month of August. The competition was divided into two batches: classes 8 -10 and classes 11 -12.

Additionally, The Environment Council also made a short informative movie on ways to lead a zero-waste lifestyle by saying 'no' to plastic. The video was circulated amongst all the classes to encourage students and their families to make their life 'plastic free' as much as possible.

AMALA CHATTERJEE INTER-SCHOOL DEBATE

6TH AUGUST

DPS Mathura Road organised the 47 th Amala Chatterjee Memorial Inter-School English Debate. वाद-विवाद प्रतियोगिता की आख्या

दिल्ली पब्लिक स्कूल मथुरा रोड
अंतरवर्गीय हिंदी प्रतियोगिता 2021-22

कक्षा - X

दिनांक - 18/08/2021

गतिविधि - वाद-विवाद प्रतियोगिता

दिल्ली पब्लिक स्कूल मथुरा रोड के हिंदी विभाग द्वारा अंतरवर्गीय हिंदी प्रतियोगिता 2021-22 के अंतर्गत कक्षा X में वाद-विवाद प्रतियोगिता का आयोजन किया गया। यह प्रतियोगिता 18 अगस्त 2021 को ऑनलाइन माध्यम से गूगल मीट के आभासी मंच पर आयोजित की गई। वाद-विवाद या बहस किसी विषय पर चर्चा की एक औपचारिक विधि है, जिसमें दो परस्पर विपरीत विचारों के समर्थक अपना-अपना तर्क रखते हैं तथा दूसरों के कथनों का खंडन करने का प्रयत्न करते हैं। विद्यार्थियों के आत्मविश्वासपूर्ण, शुद्ध तथा सटीक भाषण पर आधारित इस ऑनलाइन प्रतियोगिता में कक्षा X के 16 विद्यार्थियों ने प्रतिभागिता की तथा इन सभी में हमें सशक्त भविष्य की सुखद सम्भावनाओं के संस्पर्श महसूस हुए।

हमारी गणमान्य निर्णायिका-द्वय आदरणीया सुश्री अनुराधा तथा सुश्री नेहा के द्वारा चयनित विजताओं के नाम इस प्रकार हैं-

सर्वश्रेष्ठ समूह - अनिवि नामा तथा सानिया खान (X F)

सर्वश्रेष्ठ वक्ता (पक्ष) - सौम्या जायसवाल (X H)

सर्वश्रेष्ठ वक्ता (विपक्ष) - सौम्या शर्मा (X B)

श्रेष्ठ वक्ता - मिताली अहलावत (X H)

प्रोत्साहन पुरस्कार - हर्ष ठाकुर (X B)

AZADI KA MAHOTSAV

19TH AUGUST TO 27TH AUGUST

Our nation is celebrating the 75th anniversary of India's Independence. To commemorate this, a series of events under Azadi Ka Amrit Mahatosav were planned by the Government of India. As part of the year-long celebrations, various activities were organized during online classes.

GENDER SENSITIZATION

During the month of August, classes 6, 7 and 8 students were given sessions and awareness on gender Sensitization and gender equality. Children were asked to differentiate between sex and gender, gender stereotypes, gender roles and responsibilities, Patriarchy, preferences for a male child, the practice of female foeticide and infanticide and creating awareness on gender equality and woman empowerment through examples and role models in the field of media, sports, science, politics, music, dance, art, entrepreneurship, law etc. Success stories and Ted talks were used to inspire kids about creating a gender-sensitive society focusing on gender equality. Students were asked to create posters and slogans on this topic.

THE VY LEAP-21

The VY-LEAP 21 was organized by The Young Leadership Club. The Inaugural Session on 03 September 2021 commenced with a speech by the Principal, Ms Deeksha Khara; the Club-in-charge and the President of the Club. The guest speaker, Lt. Col. Piyush Bahuguna, had an interactive talk with the students on "COGNITIVE CAPACITIES".

The second session addressed the topic "ODYSSEY OF IPS" put forth by serving IPS Officer, Mrs Tripti Bhatt, who is presently serving as SSP Tehri, Garhwal. The second speaker of the day was Mr Mandeep Singh.

The topic of the third session was "SCIENCE AND TECHNOLOGY LEADERSHIP" addressed by Dr. Mayank Dwivedi, Director, (Directorate of Industry Interface and Technology Management), DRDO. He shared his profound knowledge on the topic and briefed the students about new technologies.

The fourth session of VY Leap 21 highlighted the meaning and importance of ' Meta-Cognition' with a discussion initiated by Lt Gen JK Sharma (Retd).

ONLINE WORKSHOP ON ARDUINO

Arduino is an open-source electronic prototyping platform enabling users to create interactive electronic objects. An Online Workshop on Arduino was organized for students of class VI-VII on 4th September from 10 am to 11 am by team Avishkaar, a category leader in Robotics and next-gen technology education. The workshop was attended by around 60 students. They learnt about basic coding, Basics of Arduino, Robotics and Artificial Intelligence and had future technology experience through hands-on by performing various live projects like the LED blinking project, Night Lamp project, Traffic Lights Controller project etc.

A NEW BEGINNING

BY: SAANVI PANDEY IX-A

The world has stopped,
But the clock is still ticking.
It may seem like the end,
But it's the new beginning.

It is a time of uncertainty,
With a wave of reinforcement.
This situation is unprecedented,
Enforcing isolation, silence, and distance.

The schools aren't open, malls and offices are closed
We can't get a handle on it, as if our lives just froze
No echoes of hope, nor the golden vision at the horizon,
Only darkness zooms around with despair and frustration.

But in the doom and gloom of calamity,
Emerged the brighter side of humanity.
For the realization to be productive,
To make the suffering from this pandemic ineffective.

Let the doors of your creativity and imagination open,
It is the time for you to do introspection
What you create now, will prove your credential.
Let's make the most of this time and display our potential.

MY GRANDMOTHER

BY: PIA CHOPRA XI-K

Life is a journey;
With memories as sweet as honey
Change is the spice of life
This should not become a cause of strife.

She has witnessed the world
Past and present which is stressed;
Still, she never accepted defeat
Which in my opinion is a great feat.

She showers her unconditional love
And taught us to live peacefully like a dove;
She prays for our well-being
Just like God who is unseen.

From her life we can learn values;
Which fills our lives with various hues.
Respect and care is what she desires
This is something which we can give
That cannot be desired.

LOST IN PARADISE

BY: JAHNAVI PANDE, XII-H

I stand there in the shadows of the night
Standing, with all my might
Watching over the moonlit mountain top
How magnificent!
The color of the moon and the twinkling of stars
Only comes out in the glint hour.

Then comes the dawn
I feel the daylight beaming
On the grass under my feet and on the mountains
It's so bright that I cannot see
But at the moment, I feel free.

The wind howls slowly
Reminding that its dusk already
The aurora's so lovely
It's a beauty, this paradise
I watch as the sun goes down
Capturing it in my evocation forever.

Soon the time of the day repeats
From where my journey initially started
And where it will cease
I turn to leave
It feels like a lifetime I've spent
Just adoring the beauty of the nature
But oh! Now that I've seen
There is nothing more beautiful
Than the creation of Earth's mise-en-scène

OUR TEACHERS

BY ALINA MARIYAM IX-A

When we join the class 20 minutes late,
And give you the excuse of "network issue"
You just let it go and let us know it's okay,
Even though you know we've just woken up.

When there's absolute silence in class
You ask something to catch our attention
We enthusiastically let you know that we understand
And you become happy just knowing that.

How you smile so brightly
When we switch on our cameras'
And how you try your best to make sure
That the concepts go inside our head and not above it.

You work so hard and explore new apps,
For that you deserve one, two and thousand claps.
We're sorry if we ever made you angry or vexed,
Just know that we love you and you're the best.

WHEN 'PATIENCE' WINS...

BY ALIKA LAL 8H

'Wait'.

Don't rush to read this piece, have 'Patience'.

I hear this all the time because I'm quite restless; I can't help it but since I got to know about the Power of Patience, my perspectives have refashioned...

Fidgety or unsettled people generally face lots of complications because of such an attitude, but the good thing is with a little effort this flaw can be curbed.

When you are twitchy, you tend to lose your calmness and sense of mind, you begin to get irritated and feel uneasy. Your Heart rate increases and so does your blood pressure. You overreact. This makes Simple things go wrong, you mess up at things you're an expert in.

Basically being impatient means Putting your health at risk.

That's why one should never lose 'Patience' in extreme adverse conditions because losing it makes things worse. When you are patient, your mind acts more actively, your decisions tend to be better and the results are finer. You know when to act and how to handle it.

To Maintain your tranquility, you must not panic; panicking expands when you shout, scream or do a lot of movement. Your panic expressions transfer to other people around creating superfluous chaos.

Don't get scared, your brain cells absolutely stop working when you are intimidated, your behavior becomes totally nonsensical. Your emotions get out of control and when it gets over your head; you totally lose it.

The calmer, the better.

That's why successful people train their minds to be patient in extreme situations. Patience brings you power, superiority, and authority.

Now or then, people will definitely notice your unique attitude, the way you behave under pressure, and how you make wiser decisions. It gives you confidence and the power to pursue.

Achieving Patience is a skill, it's an art that can take hundreds of years to master. The reason why it is so tough is that it's a matter of mind. The human brain's reflexes are by default trained to react to a crisis, but if you have the calibre and passion to achieve Patience then it shall be all yours.

In Conclusion, Patience beats Talent.

Talented people tend to lose their patience and calm in un-favouring situations but that's when it's your time to shine. If you master the art of Patience, then you will be at least a hundred times better than others at handling situations. There are very few people who can remain patient and that's what you have to be.

At the end of the day,
Patience Wins.

CODING

VASHISHTHA JHA
CLASS- VI C

'All of you must have played games but have you ever thought about how these characters are running, jumping etc on our screen. Yes, it's all about programming and coding which is the base process for all these. Children of my age must have heard about Jeff Bezos, Bill gates, Elon musk, Mark Jukerberg to name a few. Do you know one common thing among all of them? They all are great coders and turned their thoughts into code/programming to change the world. Let me take you to the world of coding.

Introduction to coding?

I am sure that in your day to day life, you may have heard the word coding/programming. Now you may have to deep dive inside your thoughts and ponder for a while, what is coding? Here are some daily life examples of coding.

1. The different types of games you play i.e. Minecraft.
2. The apps through which you buy your food.
3. The apps through which you attend your classes.

Many such apps require a lot of coding and we use them in day to day life. These are just a few examples to show you the power of coding. Coding has influenced many people to participate in the marathon of technology. All those things that made our lives way easier than they used to be were developed through coding of machines.

What is coding & How can I do it?

Now let's define coding. Coding is just a set of instructions which you give to the computer to process it. To process the instructions, the computer first needs to decode them into 1s and 0s(Binary). Now the question arises how can I do coding? If you want to code, you first need to learn the basics of coding. By basics of coding I mean, starting from scratch, learning simple things such as -

- Programming Environment
- Data Types
- Variables
- Keywords
- Logical and Arithmetic Operators
- If else conditions
- Loops
- Numbers, Characters and Arrays
- Functions
- Input and Output Operations

Learning the basics will help you to grasp the concepts. .To get better at coding I would suggest, you learn new concepts then implement them and check if there is any fault and if then correct it, this will help you a lot throughout your coding journey. You need to learn a particular language to start coding. I suggest learning PYTHON because that's easy and most people use it. You need an IDE(Integrated Development Environment) for a particular language because that's where you will need to type the code. These are some of the steps that I suggest starting with during your coding journey.

My journey in coding began last year. While playing online games I wanted to unfold the secrets of these games. I discussed this with my friend and he introduced me to the world of coding. I was curious to know about it. I searched how I could do coding. It was a really amazing and mysterious world of languages where I could give wings to my thoughts and dreams. I should share some basic information with you. There are two types of coding -

1. **Block - Based Coding** - Block-based coding or programming utilizes a drag-and-drop learning environment, where programmers use coding instruction "blocks" to construct animated stories and games. It's an entry-level activity, where kids can gain a foundation in computational thinking through visuals as opposed to coding that is based on text. Eg - Scratch, Blockly, Unreal Engine Blueprints etc.
2. **Text-Based Coding** - In a text-based programming language, coding is done by typing various characters following a certain syntax(rules and regulations) of a particular language. Eg - Python, Lua, Java etc.

CONTINUED.....

Those who are new to the world of coding should learn Block-Based Coding whereas those who want to develop apps, web browsers etc. should practice Text - Based Coding. I started with Block-Based Coding from scratch. I was new to the platform. I didn't know anything about it so I took the help of Youtube, Udemy and learnt it. I had now learnt the basics of Block-Based Coding and wanted to take a step forward by learning Text-Based Coding. I persuaded my father to take a course on coding and I was enrolled in a course where I would learn Java & Python (World's two most popular languages).

'Have you played games like Minecraft, Super Mario Odyssey? Did you notice something common in all these games? All these games are 3D games. These games consist of 3D models which provide better graphics. One Question must be revolving around your mind, What is 3D Coding? Let's take an example of a line on a plane(flat surface). It has two coordinates X and Y and if we talk about 3D Coding it would have three coordinates X, Y & Z through which you can feel these heroes and objects. I have learnt the basics of 3D Coding on HatchXR and now I can make some Basic 3D Games on HatchXR. There are three most important things: Design, Coding and Playing. In designing, we need to upload models (All models would be 3D) accordingly and we have to place them respectively. In coding, we have to write the code to make them work according to our input. Lastly, in testing, we have to test our project and check if there are any bugs. If yes, then we fix it by making some changes in the code. I have made many projects such as -

- Solar System
- Platformer
- Wormhole
- Save the rabbits
- Gumball Shooter

I created many more games with the help of Java Coding. I also learnt many new concepts such as -

- 1.Console.log
- 2.If - else statements(Conditional Statements)
- 3.Functions
- 4.Loops
 - a.For Loop
 - b.While Loop
 - c.Do Loop
- 5.Arrays
- 6.Variables
- 7.Detect Collision
- 8.Arrow Keys
- 9.Particle System
- 10.Connecting With Mobile

Have you heard about Alexa & Siri? They actually are very smart because they give us the answer to all questions or they make our work easier by following commands that we want. Did you ever think about how they work? . They work on input data known as Artificial Intelligence(AI). Now, what is Artificial Intelligence? Artificial intelligence is intelligence demonstrated by machines, as opposed to the natural intelligence displayed by humans or animals.

I have learnt many concepts about AI till now but I am still learning much more about AI. I am learning AI on three platforms that I recommend using for learning AI

- AI Playground
- P5.js
- Teachable Machine

I have made many projects on these platforms with the help of Java Programming.

This was my wonderful journey of coding that I have covered till now and now I am moving towards web development with the help of text-based coding and AI with PYTHON. I have heard that the future belongs to the CODERS and I want to join this elite club of future coders.

मेरा नाम दिमाग है

मेरा नाम दिमाग है ,
तुम्हारे लिए सोचना मेरा काम है ।

जब तुम सोते, मैं हूँ जागता,
देता तुम्हें रंग-बिरंगे सपने सलाने ।

कुछ लोग कहते की दिमाग हमारे तन का राजा ,
जी हों !

मैं हूँ बुद्धिमत्ता का स्रोत इसिलिए ,
मैं कहलाता तुम्हारे शरीर का नरेश।

मेरे पास हर सवाल का जवाब,
क्यों हूँ ना मैं लाजवाब !

द्वारा किमाया कौल , ६ -ए

मेरा संस्मरण

बात आज से करीब 30 वर्ष पुरानी है। मेरी बुआ की बेटी की शादी थी। दादा-दादी को सपरिवार शादी के पहले मेहंदी, संगीत के रस्म में जाना था। सब तैयारी करके बस स्टाप के लिए रवाना हुए। उस समय सब बस या ऑटो में ही जाते थे। मुद्रिका बस पकड़कर मोटी नगर जाना था।

बस में चढ़ने पर बच्चों व बड़ों को सीट पर बिठा दिया गया। पापाजी सबके लिए टिकट लेने कंडक्टर के पास खड़े थे कि अचानक एक महिला चिल्लाई मेरे पैसे चोरी हो गए। आज ही तनख्वाह मिली थी। दरअसल जैसे ही उसने टिकट लेने के लिए पर्स खोला तो उसमें पैसे नदारद थे। उसके शोर मचाते ही ड्राइवर ने बस रोक दी। इतने में 2-3 लोग फटाफट बस से नीचे उतर गए। अचानक ही मेरी बुआ की नज़र एक सीट के नीचे गिरे पैसे की ओर पड़ी, उन्होंने तुरंत दादाजी को बताया और दादा जी ने कंडक्टर को। ये उसी महिला के पैसे थे। शोर मचते ही चोर शायद पैसे फेंककर बस से उतर गया था। बस फिर से चल पड़ी और वे लोग शादी वाले घर पहुँच गए।

सबने खुशी-खुशी समारोह का आनंद लिया ।
