

**BIOGENICS CLUB
OF
DPS MATHURA ROAD**

**WORLD
ANIMAL WELFARE
DAY
4TH OCTOBER 2021**

REPORT 2021

It is a privilege to be of
service to animals.

*“Until, one has loved an animal a part
of one's soul remains unawakened.”*

In today's time it is very important to spread awareness about Animal Welfare Day which not everyone is familiar with. We should look more towards the health, happiness and fortunes of animals and should become aware and spread awareness. The theme for the World Animal Welfare Day this year 2021 is "Forests and Livelihoods: Sustaining People and Planet". The significance behind celebrating this auspicious day is to commemorate the importance of caring, protecting and spreading awareness regarding animals. Make a happy difference in the lives of those lives who bring you unmatched delight!

Thus, on the occasion of World Animal Welfare Day 4 October 2021, the BIOGENICS CLUB of DPS Mathura Road took a step forward in raising awareness among students, teachers and parents and making our society more inclusive towards animals. The day featured events for classes 6th-12th.

The events were as follows:-

Class VI: Weave a story

Students of class VIth presented their storytelling skills through comic strips/ short stories on conserving livelihood in forest

Class VII: WordsWorld

Students were invited to share their views on animal cruelty in the form of a poem/essay.

Class VIII: Reel Making Contest

Students were required to find a stray animal in their locality, it could be any animal (from birds and squirrels to cats and dogs) and they were told to make a 30 second reel with that animal in which they would be helping them in some way.

Whether by feeding it, giving it a home, providing warm blankets to it...whatever they could think of!

Classes VI-XII: Nature Shutterbugs

An open photography event was conducted for classes 6 to 12 to capture the essence of nature and wildlife.

"Help make this world a fairer place for animals"

Animal Cruelty

The world is full of them
By Showing cruelty we should condemn
All are different in some way or the other
We don't spare even the mother!

We often go in several buses
To enjoy seeing them playing tricks in circuses
We don't know how they feel in zoos
We don't know how they are misused

They are often beaten with a hunter
For they are just a fun instructor
We fear animals just because of their roar
What they feel is just what we ignore!

Why is there so much assassination?
Animals feel so much frustration
Poaching has been banned
We all shall stand and make them understand

Herds and herds of elephants get killed
Which make all other animals stilled
Animal Cruelty shall be stopped immediately
Every human should follow this obediently

Wildlife sanctuaries are their best protection
Zoo and circus should be everybody's objection
We all should have an inspection
For the current situation.

THIS BIRD WAS FOUND NEAR THE PLANTS, SHE WAS INJURED, SO WE TOOK CARE OF HER AND SHE

The Perils Faced By Sitara

Hi, my name is Sitara the White Tiger. I live in West Bengal. Today I will share about my adventures around India and some of its neighboring countries, born in a sanctuary but was brought here and now it is my home.

So, the adventure started when I was 12 tiger years (not man years) old.

I was lying beside my mom, well not exactly beside but really close to her. I was cozy when suddenly some sounds from far away started coming. My mom and the sounds were getting louder and louder. The sounds were such as a group of elephants were coming or a large group of lions were coming. A while, we saw many jeeps coming towards us with men holding guns, in a speed. We saw that the jeeps had a name of a company that probably was clothing company. The men wore clothes made of leather. Seeing the jeep mom started running and told me to run. We ran at full speed but the jeep coming very close to us. The men started to shoot with their guns. Some of them got to me but many were shot on my mom. Then a sharp bullet was shot towards me. And my mom jumped and got the bullet on her leg collapsed and I was going to stop and save her but just then she told me run and not to think about her. So, I ran and ran then took a narrow passage and left track of them.

I ran and ran until I was in an unknown place. I stopped there to rest for some time. I wandered around the unknown place for some time; once I even saw a village nearby but then I went to my resting point. After some days, by eating what I already learnt to hunt them] I gained some strength and again decided to go to the place because I was not getting bigger animals to eat and not getting enough food. I went around the place and again went through the path where last village nearby. This time I went closer to it and suddenly my eyes fell upon something. It was a cow. I wondered that it looked like a mixture of a deer and elephant. My mother had just begun to teach me how to catch deer. So, I ran towards the animal that looked like the deer. When I was very close to it, some people running towards me shouting and with sharp knives and long sticks ran away as I knew now that men would try to kill me. I was almost at the edge of the village but the people were still running behind me and still shouting, so I ran very fast and go very deep into the forest.
