7<sup>th</sup> January 2022

Dear Parents,

We welcome you back in the New Year with the promise of yet another bouquet of occasions and celebrations. With extended arms and an open heart, we take you through a fun filled journey of a thousand happy miles, beginning with a single step – “Celebrating 2022”. Our resolve is strong to live up to our New Year resolutions and start the year on a positive note – “I CAN & I MUST”. A very Happy New Year to you all. May this year bring peace, prosperity and happiness to everyone.

The winter break has helped parents ensure that the little ones stay safe and well protected from the biting chill of the cold winter days. We are sure that the holidays have been a joyous experience for both you and your ward, giving you an opportunity to spend quality time with your child, which is essential for his / her all round development

The highlight of the first month of the new year is the Republic Day of India, which is celebrated with a lot of fanfare, invoking patriotic feelings in each one of us. The tiny tots will be apprised about our Constitution which is the longest in the world. To help them understand the significance of Republic Day and how it is celebrated a power point presentation and videos will be shown.

‘BEST OUT OF WASTE’, Theme for Show and Tell activity will help children learn while having fun. The children will experience how to make something new and attractive from the material we do not use anymore. Children will be able to give this creativity & innovation a shape by sharing their new experience. This activity will help to enhance not only the creative and presentation skills of the students but also help them realize the importance of recycling and reusing waste material available to them.

### ACTIVITIES OF THE MONTH (on MS Teams)

#### 19<sup>th</sup> & 20<sup>th</sup> JANUARY 2022 (Wednesday & Thursday): **SHOW & TELL**

Our future generation needs to be sensitized towards their role in taking care of Mother Earth. In order to make children aware about their responsibility a show and tell activity on 'Best out of waste' has been planned for our little ones.

Best out of waste simply means to make something innovative and attractive from the material we do not use anymore. It is a straightforward process to REUSE, RECYCLE and REDUCE. So, let us gear up and create something useful and reduce the burden on our Earth and make it a beautiful place for all of us to live.

For this activity the children can plan and create anything of their choice with the waste material available at home. The little ones will show the different things they created to their fellow students and explain the activity like the material used, process of making it and how they are going to use it.

#### 25<sup>th</sup> JANUARY 2022 (Tuesday): **REPUBLIC DAY ASSEMBLY**

Republic Day is a special day for all Indians as the constitution of India came into force on 26th January 1950 which declared India's occurrence as an Independent Republic.

January 26th was chosen as the date because on this day in 1930, the Indian National congress revealed Purna Swaraj, the declaration of India's Independence from the British rule.

Teaching children about Republic Day is a wonderful way to make them aware about their role and responsibility as a citizen of the country and to mould them into responsible citizens. The significance of the Republic Day of India will be explained through an assembly followed by an activity to describe its importance.

**Note:** Material required for the Republic Day activity will be shared through the weekly list.
