

Dear Parent

November 1, 2024

As we enter November, the mornings grow colder, and children may need a little extra care before heading off to school. A warm hug and a healthy breakfast will keep them comfortable and energised, as they proceed towards a new school day.

The festive excitement from last month continues, with celebrations and activities building throughout November. Gurburab and Children’s Day will be marked by events that emphasize community, sharing, and caring—values we aim to instil in our children to help them grow into compassionate individuals. These activities are woven into the curriculum to complement classroom learning.
