Newsletter November

1st November, 2019.

Dear Parent,

As we step into the month of November, the mornings are getting colder and the little ones need a little attention before they set off for school. A healthy breakfast and a warm hug will keep them comfortable and snug through the day, giving them energy to tackle activities at school with enthusiasm.

The festive season which was the highlight of the last month continues, as the crescendo of activities, fun, frolic and celebrations heightens through the month of November too. Gurupurab and Children's Day will be celebrated with assemblies and activities where the spirit of community sharing and caring comes into focus, which we should strive to consciously ingrain in our little ones so as to turn them into sensitive and caring human beings.

The changing weather has also brought along some concerns and with the air quality in Delhi deteriorating it is important we work together to minimise the children's exposure to the same. We will be curtailing outdoor activities and games till such time as there is improvement in the air quality. We request that you protect your child by making him/her wear a mask when outdoors.

As teachers we will continue the fun in this month with lots of new activities, including art work, dramatic play and sensory activities. The children love these little breaks from classroom learning and imbibe numerous lessons through these activities, encouraging observations and enhancing the vocabulary of the tiny tots.
