

Subject Enrichment Activities April'2020

“Learning is the only thing the mind never exhausts, never fears, and never regrets.” Leonardo da Vinci

Though times are challenging and changing, we have taken to heart that the leaders of our country have taken preventative action to protect us via a nation-wide lockdown. But even in the darkest of times, there are opportunities for people to shine.

Raw knowledge is abundantly available in the pockets of our youngsters and we at DPS Mathura Road aim at preparing our students to process it for deeper learning which will equip them to succeed in this ever changing scenario. Our mission has been to ensure that learning is never interrupted, no matter what.

We are well aware that we will not be able to simply ride our way into the future. We'll have to invent our way into the future and that is what the whole DPS family is busy with. We take this opportunity to salute our young learners for their patience, perseverance and hard work in these testing times. We are sharing with you a glimpse of the dedication with which our learners are completing the Subject Enrichment Activities. Hope to get your constant support, as that is great source of motivation for all of us!
