MIND WARS- A QUIZZING ENDEAVOUR

To reinvent the education system and give students a break from traditional classroom learning, there is a dire need to revive the quiz culture in the school curriculum. Technology here can act as a facilitator by bringing innovation to quizzes and ensuring active participation among students. Besides the obvious academic benefits of expanding a student's knowledge and exploring new skills at an early age, quizzes redefine the education system in multitude ways.

Quizzes and tests help students to learn, because these tasks involve retrieval practice, or thinking back to information previously learned and bringing it to mind. But quizzes do more than just jog students' memories. The process of retrieval – bringing the information to mind – actually leads to learning all by itself. Keeping this in mind, DPS Mathura Road Quiz Club in association with Mind Wars presents its students with a unique opportunity to harness their full potential.
